

Dear Senator/ Representative,

NAFTA is being renegotiated right now. We must make sure it is a good model for all future trade agreements that represent the interests of communities, people and the environment. **The Investor-State Dispute Settlement does not represent these interests.** It is undemocratic and must be removed from the NAFTA renegotiation. It should not be included in any future trade agreements either. We want trade agreements to serve only corporate interests and give them unlimited power. Thank you for your concern and attention to this important issue.
